CIT

Relay & Switch

Making the Connection

CIT Relay & Switch validation test lab

CIT Relay & Switch, located in greater Minneapolis, MN, is a designer and manufacturer of quality electromechanical relays, solid state relays and electromechanical switches. CIT focuses on customer service and quality; we strive for cost effective manufacturing, making CIT your best option.

CIT Relay & Switch has a specialized test lab for new design, validation product testing, IQC, failure analysis and material testing. We help customers solve their toughest problems by providing comprehensive technical expertise from our state-of-the-art lab. Providing accurate, concise solutions, we give our customers the best explanation why their components perform they way they do.

The CIT IQC Test Lab, in coordination with the CIT Technology Lab, ensures documented reliability. Incoming products are tested for x-ray plating verification of contact material, resistance, dielectric strength, solderability and other parameters. Also, CIT maintains warehousing in Hong Kong and Minnesota to meet on-time delivery and freight cost concerns.

CIT Technical Engineering support is readily available. Application support is moments away. Technical expertise on plastics, metallurgy, contact material recommendations, in-rush protection, molding, process application issues and many more questions can be asked and answered by email or phone. We are here to help!

Please contact CIT today to validate product suitability for your application with real-time testing backed with data. Email us at testlab@citrelay.com or 763.535.2339.

Featured Product

Featured Switches

DH Series Anti-Vandal
IP67 | 22mm, 25mm, or 30mm

Snap-Action
DM3 | SM3 | VM3 | IP67 VM3S

Tactile
SMT | Thru-Hole

Pushbutton Rocker Toggle
Standard | Sealed | Sub-Mini

Featured UL Approved Relays

J102 Series
PC Pin | 1A, 1B, 1C

J115F 50 amp
J115F1 | J115F2 | J115F3

J116F Series
Small footprint | 50 amp Ice Cube | PC Pin or Solder Lug

J151 Series

PC740 Series
40 amp | up to 240VAC/110VDC

Featured UL Approved Latching Relays

L115F Series
Latching | up to 48VDC | UL/TÜV certified

PC10L Series
50 amp | Single or Dual Coil

PC302 Series
1 amp | Micro Miniature

PCT90 & PCT91 Series
up to 50 amp | Footprint Options

Featured Automotive Relays

A2K & A3K Series
Blowout Magnet

A2H Series
50 amp | PCB or QC

A6 Series
30 amp | Small & Light

PC775 Series
75 amp | Screw Terminal

PC776 Series
130 amp | Heavy Duty

Featured Solid State Relays

PCS4Series Solid State
2 amp | DC Input AC Output

PCS24Series Solid State
60 amp | DC Input | Three Phase

PCS34 Series Solid State
AC or DC Input | Solid State

PCS53 Series
AC or DC Input | Compact

Datasheets and complete product information at www.citrelay.com

UL approved latching relays

In 2020, Circuit Interruption Technology, Inc. expanded our product offering with the acquisition of Picker Components. CIT Relay & Switch manufactures electromechanical relays and switches, while Picker Components manufactures electromechanical and solid-state relays. Wherever opportunities arise, CIT works to provide customers the best product for the application and the most compelling support experience. Two quality manufacturers rolled into one for continued growth of CIT/Picker through paramount service, selection, quality, and value — we strive to be the best.

The combination of CIT Relay & Switch and Picker has generated value for our customers through a global network of services, and expanded engineering expertise. It has magnified our value with a wide breath of product while at the same time extracting synergies.

CIT places the customer first. We work directly with customers from simple to complicated projects, tailoring custom solutions and designs. Our technical, engineering, and customer support personnel are well-trained and can help with your design selection requirements. With a state-of-the-art test lab, CIT can address custom or standard test requirements under a variety of conditions to validate your application. From small to large projects, we are here to help with all our customers' testing and design needs.

Now the home of

**your premier source for solid state relays,
electromechanical relays and switches**

Complete Solutions

Specifications and availability subject to change without notice.

Dimensions shown in mm. Dimensions are shown for reference purposes only.

Heat Transfer Pads

- Low Thermal Resistance
- Good Thermal Conductivity
- Easy to Install and Clean
- HTP50 For use with PCS53
- HTP100 For use with PCS15, PCS28, PCS33, PCS34 AC In & PCS34 DC In
- HTP300 For use with PCS24

Protective Covers

- Easy to Install
- Clear Polycarbonate Material
- SSR50 for use with PCS53
- SSR100 for use with PCS33, PCS34

Heat Sinks

PCH-M-120

PCH-H-150

PCH-I-50

PCH-IF-110*

* Fan not included. Orion Fan OD8025-12HB is recommended

Heat Sink Ordering Information

	Dimensions (mm)	Thermal Resistance	Matching SSR
PCH-M-120	64 x 110 x 118	1.1°C/W	PCS15 ; 20A, 25A PCS33 : 400VDC 10A, 150VDC 50A, 100VDC 20A, 50VDC 40A, 30VDC 100A
PCH-H-150	55 x 142 x 150	0.6°C/W	PCS15 : 40A PCS33 : 50VDC 80A, 100VDC 40A, 200VDC 40A PCS34 : 40A, 50A
PCH-I-50	50 x 50 x 50	2.4°C/W	PCS15 : 10A, 15A PCS33 : 30VDC 50A, 200VDC 10A
PCH-IF-110 (Requires an additional 80mm cooling fan)*	55 x 142 x 150	0.6°C/W	PCS28 : 40A and above PCS34 : 60A and above

* Fan not included. Orion Fan OD8025-12HB is recommended

Warranty

Buyer accepts that Seller's warranty prevails on orders confirmed by Seller. Seller warrants its products to be free from defects in materials and workmanship at the time of shipment under normal use and service in accordance with Seller's specifications or drawings for a period of one (1) year after date of shipment by Seller. Seller's obligations with respect to warranty claims are limited to only repair, replacement or refund of the purchase price actually paid for the product, after return of the product. This warranty does not extend to any product sold by Seller that has been subjected to misuse, neglect, accident, improper installation, a use in violation of instructions furnished by Seller, or that has been soldered or altered during assembly and is not capable of being tested by Seller. The foregoing warranty supersedes and replaces any and all warranties, whether oral, written, express, implied or statutory. Implied warranties of fitness for a particular purpose and merchantability are specifically excluded and shall not apply. Buyer agrees that Seller is not liable for any special, incidental or consequential damages including, but not limited to, damages resulting from loss of profit or revenue, recall costs, claims for service interruptions or failure to supply, downtime, testing, installation or removal costs, costs of substitute products, property damage, personal injury, death or legal expenses. Seller's products are not designed, manufactured or intended for critical use in end products, which include, but are not limited to, nuclear facilities applications, human medical, including implantable devices, or life support or critical care systems. Seller is not liable, in whole or in part, for any claims or damages arising from such use. It is up to the end user to test and determine the suitability for end product.

About Us

CIT Relay & Switch places the customer first, working directly with customers from simple to complicated projects, tailoring custom solutions and designs. When you contact CIT, you are immediately connected to a professional. Our technical and customer support personnel are well trained, and can help with your design requirements. With our test lab we can address any custom or standard test requirements that you may need. From small to large projects, we are here to help with your testing needs. Join the many customers who have come to rely on the good folks at CIT.

Mission

CIT Relay & Switch is committed to you.

Wherever opportunities arise, CIT Relay & Switch works to give its customers the best product for the application and most compelling support experience. Continued growth through paramount service, selection, quality, and value – we strive to be the best.

Our extensive line of **relays and switches** does not end with what you see in our catalog. Every day we work with customers to create custom relay and switch solutions for their design needs.

Your product deserves the **personalized attention** that CIT Relay & Switch offers.
